

MobiCom M1000

“We’ll keep you connected ”

Assurecom is your mobile power and communications company.

Founded in 2005 by a group of individuals realizing the need for an easy mobilized way of delivering power and communications to disaster stricken areas in a short period of time. With the MobiCom M1000 you have 1000 Watts of power, Wireless Internet connections, Voice over IP phones (VOIP) and 12V Automobile style chargers all in a mobile 6x10 trailer that can be towed by almost any car or truck. The MobiCom M1000 can be set up in under 10 minutes or stored for years either inside or out. The MobiCom M1000 has been designed with triple power redundancy. The M1000 has a 24 volt 183 aH Gel type battery bank as well as 1000 watts of Solar panels and a 1000 watt propane powered generator. The M1000 is designed for years of reliable carefree operation.

Assurecom is leading the industry with unprecedented price and performance of our MobiCom M1000 unit. The M1000 can sustain winds of 120+ mph when equipment is stowed and operate in winds of over 60 mph.

Leading the industry in mobile power and communication for today, tomorrow and the future. Ask about custom configurations or designs!

PRODUCT SPECIFICATIONS:
